Hello,

I'm writing to provide additional information about the phased approach to the upcoming SPH-B renovations. As previously mentioned, the project will be conducted in two phases, isolating east and west sides of the building to minimize disruption to our daily operations while improving various aspects of our workspace.

**Phase 1: Western Side Renovation** is scheduled to begin in summer 2024.
**Phase 2: Eastern Side Renovation** is scheduled to begin in fall 2025.

The map linked below illustrates the locations that will be unavailable during each phase.
**Phase 1 locations are highlighted in green.**
**Phase 2 locations are highlighted in orange.**

Be sure to zoom in to the images to see the locations clearly.

I'm also providing visuals that might be helpful as renovations approach. Again, areas highlighted in green are Phase 1 and areas highlighted in orange are Phase 2.

- [West and East Exterior View](#)

Please reach out with any questions.

Thank you,
Ben Hutchins
*Director of Facilities and Safety*
