## Multiple Open-Rank Tenure-Track and Tenured Faculty Positions

Department of Kinesiology

Indiana University School of Public Health-Bloomington

The Indiana University School of Public Health-Bloomington (SPH-B) invites applications for multiple tenured/tenure-track faculty positions in the Department of Kinesiology. This is an open-rank search and applicants at all levels (assistant, associate, or full professors) are welcome. The SPH-B seeks individuals passionate about our mission to promote health for all members of society through rigorous and impactful research, excellence in teaching and mentoring, and service to the university, profession, and the community. These 10-month appointments would ideally start August 1, 2023, although an earlier or later start date is negotiable. Applications received by November 15, 2022, will receive full consideration, and applications will be accepted until the positions are filled.

A member of the prestigious Association of American Universities (AAU) since 1909, Indiana University prides itself in offering outstanding academics grounded in world class research and a vibrant campus life. The School of Public Health-Bloomington is located on the flagship campus of Indiana University and is comprised of over 200 faculty across five departments. Continuing the momentum of hiring 25 outstanding tenure-track/tenured faculty during 2021-2022, the SPH-B is launching another wave of faculty recruitment. The Department of Kinesiology recently celebrated its 75<sup>th</sup> Anniversary and is consistently highly ranked by the National Academy of Kinesiology. Under the leadership of a new Chair (Dr. Ellen Evans) the Kinesiology faculty (38 full-time faculty; 22 tenured/tenure-track), a talented, productive, and collegial team, is united by a shared interest in creating and translating knowledge in human movement sciences and sport as it relates to optimal health and quality of life. Our faculty conduct research within the areas of exercise physiology (basic and applied/clinical), neuromotor control and biomechanics, athletic training, and physical activity behavior. With Kinesiology being one of the largest departments at Indiana University, our faculty educate, mentor, and serve 1300 students enrolled in our BS, MS, MPH, and PhD degree programs.

**Responsibilities:** Tenure track faculty in the Department of Kinesiology are expected to substantially contribute to the overall academic excellence of the department by developing and/or maintaining a robust research portfolio including pursuing and obtaining major extramural research funding to conduct cutting-edge research in modern public health science both as a corresponding principal investigator and a collaborating investigator; teaching and mentoring students at the undergraduate and/or graduate level as designated by the department chairperson; and actively providing service internally to the department, school and university and externally to the profession and/or the community. Areas of special interest within the area of human movement include, but are not limited to, a) behavioral science and interventions, b) health disparities and social determinants of health, c) energetics and energy metabolism as related to weight control, obesity, longevity, and sports and exercise nutrition, and d) aging. All research areas related to health will be considered, with preference given to research that is a) collaborative and synergistic with other Kinesiology, SPH-B and Indiana University faculty and b) aligns with major funding priorities. These positions are located on the campus of Indiana University, Bloomington (IUB) in Bloomington, Indiana, and successful candidates are expected to work on the IUB campus to allow full engagement with the department, school, campus, and community. Indiana University bases its tenure and promotion recommendations upon performance in three areas including research, teaching, and service. All individuals hired through this initiative are expected to excel in research and provide strong performance in teaching and service.

**Qualifications:** Candidates must hold a doctoral degree in Kinesiology or a closely related field (e.g., physiology, medicine, health psychology, etc.) from an accredited educational institution. A firm commitment to the role of diversity in all aspects of research, education and service is essential. Good interpersonal skills, effective communication skills, and the ability to work cooperatively and congenially within a diverse faculty are also required. Candidates for assistant professor positions must have

demonstrated success as a developing independent investigator having secured or with strong potential for securing extramural funding as corresponding principal investigator. It is also strongly anticipated that the successful early-career candidate for this rank will have completed post-doctoral training. Candidates for associate and full professor positions must demonstrate a record of scholarly achievement appropriate for rank, including current or strong potential to secure extramurally funded research as a corresponding principal investigator and experience leading a sizeable research program. Finally, it is expected that candidates have teaching and mentoring experience appropriate for the position of hire.

**About Indiana University Bloomington:** Founded in 1820, Indiana University-Bloomington (IUB) is the flagship campus of Indiana University. Located in Bloomington, IN., IUB constantly strives to embody its mission to create, disseminate, preserve, and apply knowledge. It does so through its commitments to cutting-edge research, scholarship, arts, and creative activity; inspired and challenging undergraduate, graduate, professional, and lifelong educational programs; meaningful experiences outside the classroom; expansive global educational opportunities while fostering a culturally diverse campus environment; first-rate library and museum collections; and far-reaching economic development and impact in the state and region.

IUB is accredited by the Higher Learning Commission and is a member of the North Central Association. With over 35,000 undergraduate students and more than 11,000 students in graduate and professional programs, the campus has 16 degree-granting colleges and schools offering 300+ undergraduate majors, 300+ Master's degrees, and 150+ doctoral and professional degree opportunities. Known for its Indiana limestone facades and green spaces throughout, IUB is widely considered one of the country's most beautiful college campuses. The School of Public Health-Bloomington (SPH-B) is located in the heart of the IUB campus and comprises five collaborative academic departments with over 200 faculty and staff, including [one of the most diverse faculties of any school of public health in the nation](#), with 34.9% of current tenure-track/tenured faculty being underrepresented minorities. In 2022, IUB was honored with the [Higher Education Excellence in Diversity award](#).

Indiana University provides IU SPH-B faculty outstanding teaching and research support through programs like the IU Faculty Academy on Excellence in Teaching (F.A.C.E.T.); extensive research development and research administrative support through the Office of the Vice President for Research; and innovative collaborations with organizations like the [Indiana Clinical and Translational Sciences Institute](#), the IU School of Medicine (IUSM) and Regenstrief Institute's [Center for Aging Research](#), and the IUSM's [Center for Diabetes and Metabolic Diseases](#), and the IU Bloomington's [Environmental Resilience Institute](#). In addition to outstanding programs like these, exciting things are happening in medical sciences at IUB with the opening of the IU [Regional Academic Health Center](#) in Bloomington and significant synergy in cross departmental collaborations in areas like environmental impacts on human health, nutrition and aging. The School has strong connections to Indiana University School of Medicine, Dentistry, and Nursing, Informatics and Computing, Art & Design, Public and Environmental Affairs, and the IUPUI Fairbanks School Public Health, along with Purdue University programs in Pharmacy and Engineering. IU SPH-B continues its rapid expansion embracing a comprehensive and holistic approach to promoting health and wellbeing within the research, teaching and service aspects of our mission. With an emphasis on high quality and impactful research and an embracement of the importance of diversity and inclusion across all our academic endeavors - there has never been a more exciting time to join our growing faculty.

Nestled in the rolling hills of south-central Indiana, and home to 85,000 residents, the city of Bloomington offers the feel of a college town with many of the amenities of a large city. From off-Broadway plays and musicals, the LOTUS World Festival of Music, quick access to 250,000 acres of public recreation lands, outstanding public schools and a reasonable cost of living, Bloomington offers much to all.

**Application Procedure:** Please provide a 1) curriculum vitae, 2) cover letter summarizing your qualifications and interest in the position, 3) research statement 4) statement of teaching interests, and 5) diversity statement. Additionally, please provide a list of up to six (6) references (a minimum of three references for the Assistant Professor rank and a minimum of six for Associate or Full Professor); references will be contacted if you are selected for an interview. Interested candidates should submit applications at: <https://indiana.peopleadmin.com/postings/14347>.

Before a conditional offer of employment is finalized, candidates will be asked to disclose any pending investigations or previous findings of sexual or professional misconduct. They will also be required to authorize an inquiry by Indiana University Bloomington with all current and former employers along these lines. The relevance of information disclosed or ascertained in the context of this process to a candidate's eligibility for hire will be evaluated by Indiana University Bloomington on a case-by-case basis. Applicants should be aware, however, that Indiana University Bloomington takes the matters of sexual and professional misconduct very seriously.
